## Helpful advice on preparing artwork

To ensure the best and quickest results when submitting your artwork here's a little list of things to bear in mind:

1. **File Formats.** We can accept various file formats for artwork including:

- .pdf (portable document format)\*
- .ai (adobe illustrator file)\*
- .eps (encapsulated post script)\*
- .bmp (bitmap)
- .jpeg (joint photographic experts group)
- .png (portable network graphics)
- .psd (photoshop document)

\* Preferred formats

2. **Image Resolution.** Please use high resolution images. (we recommend 300 dots per inch as a minimum).

3. **Embed Images:** Please embed images. Don't send files with linked images.

4. **Text/Fonts.** To avoid missing font issues please either:

Convert your text to outlines

or,

send the relevant font files with your artwork.

5. **Template lines.** Please create your artwork on a different layer to the cut, bleed and fold lines. If you're saving to a single layer file such as a Jpeg then remove these lines when you have positioned your elements and before sending us your artwork.

## 6. Traceability

Please don't forget this! (It's a legal requirement).
